- Operations

## Soft Skills

- Leadership
- Communication
- Awareness
- Adaptability
- Collaboration
- Multitasking

## About Me

I'm a hands on Field Producer with a background in event planning, video production, and digital media. I adapt to fast-paced environments where I assist in logistics, deploy technical setups, and keep things moving. I'm interested in live events, shoots, and open to learning more!

## Experience

- |                                                                |                                                                                                                                                 |
|----------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>PRODUCTION ASSISTANT</b><br><b>2024 - 2025</b><br>Freelance | Operate cameras, edit footage, assist with post-production, tech setup, live streaming, and general tasks.                                      |
